It shall be unlawful for any person to operate a permanent, temporary or seasonal food service establishment within Bond County, Illinois, who does not possess a valid permit issued by the health authority. Only a person who complies with the requirements of this ordinance shall be entitled to receive and retain such a permit. Permits shall not be transferable from one person to another person or place or address. A valid permit shall be posted in a conspicuous place in every food service establishment. B. CATEGORIES OF PERMITS

- 1) Category I facility means a food establishment that presents a high relative risk of causing food-borne illness, based on the large number of food handling operations typically implicated in food-borne outbreaks and/or the type of population served by the facility. Category I facilities include those where the following operations occur:
  - Potentially hazardous foods are cooled, as part of the food handling operation at the facility;
  - Potentially hazardous foods are prepared hot or cold and held hot or cold for more than 12 hours before serving;
  - Potentially hazardous cooked and cooled foods must be reheated;
  - Potentially hazardous foods are prepared for off-premises serving for which time-temperature requirements during transporting, holding and serving are relevant;
  - Complex preparation of foods or extensive handling of raw ingredients with hand contact for ready-to-eat foods occurs as part of the food handling operations at the facility;
  - Vacuum packaging and/or other forms of reduced oxygen packaging are performed at the retail level; or
  - Immunocompromised individuals such as the elderly, young children under age four (4) and pregnant women are served, where these individuals compose the majority of the consuming population.
- 2) Category II facility means a food establishment that presents a medium relative risk of causing food-borne illness, based upon few food handling operations typically implicated in food-borne illness outbreaks. Category II facilities include those where the following operations occur:
  - Hot or cold foods are held at required temperatures for no more than 12 hours and are restricted to same-day service;
  - Foods are prepared from raw ingredients, using only minimal assembly; and foods that require complex preparation (whether canned, frozen or fresh prepared) are obtained from approved food processing plants, high risk food service establishments or retail food stores.
- 3) Category III facility means a food establishment that presents a low relative risk of causing food-borne illness, based upon few or no food handling operations typically implicated in food-borne illness outbreaks. Category III facilities include those where the following operations occur:
  - Only pre-packaged foods are available or served in the facility, and any potentially hazardous foods available are commercially pre-packaged in an approved processing plant;
  - Only limited preparation of non-potentially hazardous foods and beverages, such as snack foods and carbonated beverages, occurs at the facility; or
  - Only beverages (alcoholic and non-alcoholic) are served at the facility.

- C. **ISSUANCE OF NEW ANNUAL PERMITS AND SEASONAL PERMITS:** Any person(s) desiring to operate a new food service establishment or a seasonal food service establishment as defined shall make written application for a permit on forms provided by the health authority. Upon receipt of such an application, and the payment of the Application/Plan Review Fee as indicated in the health authority's Environmental Health Programs Fee Schedule, the health authority shall make an inspection of the food service establishment to determine compliance with the provisions of this ordinance. When the inspection reveals that the applicable requirements of this ordinance have been met, and the permit fee as indicated in the health authority's Environmental Health Programs Fee Schedule has been paid, a permit to operate a new food service establishment or seasonal food service establishment shall be issued to the applicant(s) by the health authority. A new or seasonal food service establishment shall not operate until the permit is issued to the applicant(s) by the health authority.
- D. **ISSUANCE OF TEMPORARY FOOD PERMITS:** Any person(s) desiring to operate a temporary food service establishment shall make written application for a permit on forms provided by the health authority. Payment of the permit fee as indicated in the Environmental Health Programs Fee Schedule shall be made when the application is submitted to the health authority. Food served at temporary food service establishments shall be limited to those food products defined in the Illinois Food Service Sanitation Code, and/or potentially hazardous foods that require only limited preparation. Foods that require combinations of potentially hazardous foods or complex preparations are restricted and may only be authorized if pre-approved 30 days in advance by the health authority. An inspection of a temporary food establishment shall occur prior to the beginning of the event. When the inspection reveals that the applicable requirements of this ordinance have been met, a permit to operate a temporary food service establishment shall be issued to the applicant(s) by the health authority. A temporary food service establishment shall not operate until the temporary permit is issued to the applicant(s) by the health authority. Any persons(s) desiring to obtain a temporary food establishment permit shall make application to the health authority at least 3 days prior to the event. All permit applications submitted late shall be assessed a late fee as indicated in the health authority's Environmental Health Programs Fee Schedule. One (1) or two (2) day events are exempt from the permit requirements; however, an inspection may be performed at these 1 and 2 day events if in the opinion of the health authority a health hazard may exist.
- E. **RENEWAL OF ANNUAL PERMITS:** Annual renewal of permits shall be required for continued operation of a permanent food service establishment. A Notice of Permit Fee Due and Permit Application shall be sent to the permit holder of all permanent food service establishments at least sixty (60) days prior to the expiration of the current permit. The permit fee and completed permit

application are due thirty (30) days prior to the current permit expiration. When the permit fee and completed application are received, the new permit shall be issued. Failure to renew the food service establishment permit by the due date shall result in a late application fee as indicated in the health authority's Environmental Health Programs Fee Schedule being assessed. The late application fee and appropriate permit fee shall be paid before the new permit to operate is issued. Failure to renew the permit for a permanent food service establishment by January 1 shall result in the food service establishment operating without a valid permit.

- F. **SUSPENSION OF PERMITS:** Permits may be suspended temporarily by the health authority for failure of the permit holder or operator to comply with the requirements of this ordinance and/or the Illinois Food Service Sanitation Code. Whenever the permit holder or operator has failed to comply with the provisions of Section 3 of this ordinance, the permit holder or operator shall be notified in writing that the permit is upon service of the notice, immediately suspended and that an opportunity for a hearing will be provided if a written request for a hearing is filed with the health authority by the permit holder or operator. Upon suspension of the permit, the permit shall be revoked and removed from the establishment by the health authority and returned to the health department. Notwithstanding the other provisions of this ordinance, whenever the health authority finds unsanitary food service establishments which, in the health authority's judgment, constitute an imminent health hazard to the public health, the health authority without warning, notice or hearing, shall issue a written notice to the permit holder or operator citing such conditions; specifying the corrective action to be taken and specifying the time period within which such corrective action shall be taken; and if deemed necessary, such order shall state that the permit is immediately suspended and all food service operations are immediately discontinued. Any person to whom such an order is issued shall comply immediately therewith, but upon written petition within five (5) days to the health authority shall be afforded a hearing as soon as possible.
- G. **REINSTATEMENT OF SUSPENDED PERMIT:** Any person whose permit has been suspended may, at any time, make application for a re-inspection for the purpose of reinstatement of the permit. Within ten (10) days following the receipt of a written request, including a statement signed by the applicant that in their opinion the conditions causing suspension of the permit have been corrected, the health authority shall make a re-inspection. If the applicant has completed the required corrections, reinstatement of the suspended permit, on a provisional basis, shall be reviewed for consideration by the health authority. The provisional restriction shall be removed when the food service establishment demonstrates consistent compliance with the requirements of the Illinois Food Service Sanitation Code and this ordinance.
- H. **REVOCATION OF PERMIT:** For serious or repeated violations of any of the requirements of this ordinance, or for interference with the health authority in the

performance of their duties, the permit may be permanently revoked after an opportunity for a hearing has been provided by the health authority. Prior to such action, the health authority shall notify the permit holder or operator in writing, stating the reason for which the permit is subject to revocation and advising that the permit shall be permanently revoked at the end of five (5) days following service of such notice, unless a request for a hearing is filed with the health authority, by the permit holder or operator within such five (5) day period. A permit may be suspended for cause pending its revocation or a hearing relative thereto.

- I. APPLICATION FOR PERMIT AFTER REVOCATION: Whenever revocation of a permit is final, the holder of the revoked permit may make written application for a new permit. Application shall be made on forms provided by the health authority. The appropriate permit fee as indicated in the health authority's Environmental Health Programs Fee Schedule shall be paid at the time the application is submitted to the health authority.
- J. HEARING: The hearings provided for in this section shall be conducted by the health authority at a time and place designated by the health authority. Based on the record of such hearing, the health authority shall make a finding and shall sustain, modify, or rescind any official notice or order considered in the hearing. A written report of the hearing decision shall be furnished to the permit holder or operator by the health authority.
- K. FEES: Fees shall be charged by the health authority for permits to recover a portion of the cost and resources for regulation, education and inspection for the food protection program. Fees for various categories of food service establishments permits are established by the Board of Health. Fees shall be collected by the Bond County Health Department and deposited into the Bond County Health Department Fund. Persons requesting a permit shall pay the fee(s) as indicated in the health authority's Environmental Health Programs Fee Schedule. All permit fees shall be non-transferable and non-refundable once a permit to operate has been issued by the health authority.
- L. INVALID PERMIT CATEGORY: Establishments conducting food service operations not within the acceptable limits of the permit category assigned by the health authority in accordance with the Illinois Food Service Sanitation Code are therefore operating without a valid permit. Therefore, the applicant shall make appropriate changes to operate within the assigned permit category, and are subject to a fine of \$500.00. The permit holder or operator shall complete a new permit application and shall be assessed a Change in Permit Category fee as indicated in the health authority's Environmental Health Programs Fee Schedule when the change(s) requires a permit issued for continued operation at a higher risk category.
- M. PERMIT UPDATES: The permit holder has an affirmative and continuing requirement to update the original and all renewal permit applications. As a result, the permit holder or operator must inform the health authority of any changes in

the information listed in these applications within thirty (30) days. Failure to comply with these requirements, or knowingly furnishing false information on the original or renewal permit applications shall be grounds for immediate suspension or revocation of any permit issued pursuant to this Ordinance.
